Vol. VI, No. 10

October 1962

SEPTEMBER UNIFORM PRICE \$4.00

Dairy farmers will receive a uniform price of \$ 4.00 for September 1962 deliveries of Grade A milk to handlers under the South Bend-LaPorte-Elkhart, Indiana, milk order. The uniform price is based upon a butterfat test of 3.5 percent, and will be adjusted by a differential of 7 cents for each one tenth percent that tests vary above or below the 3.5 percent standard. This minimum price is subject to a 4 cent per hundredweight marketing service deduction, together with the authorized hauling charge.

PRODUCER RECEIPTS

Average daily receipts of producer milk were up 4.5 percent over August and about the same amount over September of 1961. Average daily herd production was 32 pounds per day more than in August and 16 pounds per day more than in September of 1961. The average butterfat test of producer receipts increased about three fourths of a point over August and is about one half a point higher than last year. Ordinarily the average test of producer receipts runs slightly less than the previous year.

CLASS I SALES

An increase of 7.4 percent in Class I sales over August is considered normal in this market. In 1961 there was a slight decrease in Class I sales in comparing September with August. However, in October there was a 14 percent increase which shows that September of 1961 was an exceptionally low month. Statistics on 2 percent milk products sold under various trade names will be reported separately in the future. Up to the present time they have been reported with fortified skim milk. The amount of 2 percent milk product sold by Order No. 31 pool handlers in September was 715,201 pounds. This product has been increasing by substantial amounts every since it was introduced several years ago.

CLASS I PRICE

The Class I price for the October 1962 delivery period will be \$4.32 per hundredweight for 3.5 percent milk. This price was computed by adding \$1.30 per hundredweight to the basic formula price (\$3.06) and subtracting the 4 cent supply-demand adjustment. The supply-demand adjustment for November delivery period will be a plus 2 cents.
